OBJECTIVE

Motivated Computer Science undergraduate specializing in Software Engineering with hands-on experience in web development, machine learning, and distributed systems. Seeking internship or graduate opportunities in Software Development and QA Engineering to apply technical and problem-solving skills in real-world projects.

PROJECTS

CIVIC PLAN Land Management Portal, Python, SQLite, HTML/CSS/JS, ML (Group)

- Built a web-based land management system with citizen registration, document submission, admin approval workflows, property search, GIS/street-view visualization and ML-based land valuation.
- Conducted performance testing using Apache JMeter to analyze system response time, scalability, and reliability under different workloads.

Mineral Density Classification System, Python, TensorFlow/Keras

- Developed CNN/ANN image classification models achieving high prediction accuracy through preprocessing, model tuning, and evaluation.

Distributed Banking System, Python, gRPC, SQLite

- Engineered a 3-tier distributed banking application with RPC communication, secure authentication, transaction validation and SQLite persistence.

Flutter Tic Tac Toe Game, Dart, Flutter

- Developed a cross-platform mobile game with clean gameplay logic, responsive UI and multiple difficulty levels.

Quotes Web Application, Ruby on Rails, SQL

- Built a Rails web app with role-based access, secure authentication and database-backed content management.

Dictionary Search Program, C++

- Created a word management tool with search functionality, file handling and random word selection.
-

EDUCATION

November 2023 - Present

Bachelor of Computer Science - Edith Cowan University, Rajagiriya

July 2022 – November 2023

Foundation Certificate in IT - Edith Cowan Collage, Rajagiriya

2021 (2022)

GEC Ordinary Level – Isipathana College, Colombo 05

TECHNICAL SKILLS

Programming Languages: Python, Java, C++, Dart, JavaScript

Frameworks & Libraries: Flutter, TensorFlow/Keras, Ruby on Rails

Web Technologies: HTML5, CSS3, JavaScript

Databases: MySQL, SQLite

Tools & Platforms: Git, GitHub, Apache JMeter, VS Code

Software Engineering Concepts: OOP, REST APIs, Networking, Distributed Systems, Software Testing, Performance Testing, Data Structures & Algorithms

Machine Learning: Image Classification, CNN, ANN, Model Evaluation

LANGUAGES

- Sinhalese (Native)
 - English (Fluent)
